Semester: Spring 2024

Student Name: Emon Islam Shanto

Student ID: 211-35-3153

Batch: 34   **Section: A**

Course Code: EMP101   **Course Name: Employability Skills 360°**

Course Teacher Name: Mr. Nuruzzaman Faruqui

Designation: Assistant Professor

Submission Date: 20 /05/2024

My Career Goal

In the next few years, I want to become really good at two things: building websites and apps using MERN Stack, and understanding data as a scientist. First, I'll find a job at a cool tech company as a MERN Stack developer, where I'll use my programming skills to make awesome web applications. While I'm doing that, I'll also be studying more about data science.

I'll take some classes and maybe even get a master's degree in data science. I'll learn all about analyzing data, using machines to learn from it, and making predictions. My plan is to be good at both building web stuff and working with data.
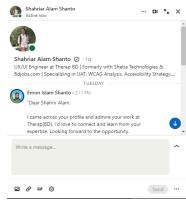

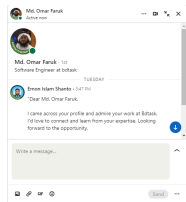

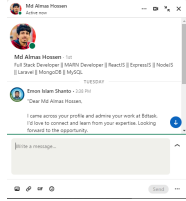

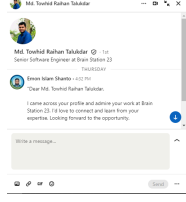

By doing both, I hope to create new and smart solutions that use data to help businesses grow and make better choices. It's going to be a lot of work, but I'm excited to learn and see where it takes me!

CV and Resume

My CV is impressive because it effectively showcases my skills, experiences, and achievements in a way that's easy to understand. It highlights my passion for full stack development with MERN, showing how I've excelled in areas like problem-solving or teamwork. I've included examples of my successful projects and demonstrated my commitment to learning and improving. Employers will see that I'm a strong candidate who's ready to make a valuable contribution to their team.
